June 25, 2026

Dear Rayya Karim,

Congratulations on your appointment as the student representative to the Delaware Advisory Council on Career and Technical Education (DACCTE) for the 2026-27 school year.

Career and Technical Education opens doors for students. It helps them connect what they are learning in school to the futures they want to build. As the Council's student representative, your voice will help shape conversations about how we continue to strengthen Career and Technical Education for students across Delaware.

As a CTE Engineering student at MOT Charter School, your experiences in engineering, leadership, and service have prepared you well for this role. I know your perspective will strengthen the Council's work as we continue creating high quality opportunities for students across our state.

Thank you for saying yes to this opportunity. I look forward to the ideas and perspective you will bring as we continue working together to strengthen Career and Technical Education for Delaware students. Dr. Christopher Stahl and Caitlin Rozell will contact you soon with additional information about your appointment and upcoming Council meetings.

Congratulations again on this well-deserved appointment!

Sincerely,

Cynthia Marten
Secretary of Education
